**A Social Program**
To enhance the lives of individuals living with memory loss

# partners in the arts

## for people with dementia

**Partners in the Arts** is a program designed for individuals in the early stages of dementia and their caregivers to participate in community activities that are adjusted to meet their needs. Families have the freedom to enjoy the activity or event while in compassionate company and with peace of mind.

### *Collage Expressions Program*

This course introduces basic collage techniques with emphasis on creative expression from found objects, including family photographs, fabrics and personal pieces from the past. Both the person with memory problems and caregiver will develop collages using personal style and unique items under the guidance of nationally exhibited artist DeborahWinram. Students will also take short tours of the Delaplaine Center's galleries for inspiration and information.
