WASTE MANAGEMENT ADMINISTRATION
Report of Observations

Case # 2004-WPT-0604

Type of Inspection/Observations: Solid Waste - New P/T Facility Status

Date 9/29/08

Site/Facility Name: Site B Processing Facility and Transfer Station

Time In: ~2:30PM

Location: (at Frederick Co. LF) 4751 Yard Waste Court, Frederick, MD 21704

Time Out: ~3:00PM

Remarks: (Background) I last visited the new P/T Facility on 8/8/08 and wrote comments about the floor problems in the report on the landfill on that date.

• Today, again on a landfill (LF) inspection, I inquired with Don Foster of the LF as to the status of the floor. Don suggested that I talk either to Mehal Trivedi or Rod Winebrenner of Division of Utilities & Solid Waste Mgmt.

(Observations & Actions)

• 10/1/08. I phoned and got a message back from Rod Winebrenner. Rod said that the floor is scheduled to be done in Mid-November. He said that the entire project will hopefully be done at that time, also.

• As noted in the 9/29/08 report on the LF, MDE has authorized continued operation of the temporary transfer station until 11/29/08, so Rod's estimates are close to the current time limit, but do give some room for delays.

• I will stay apprised of the situation. If construction on the floor is delayed, the LF will need to extend the authorization to use the temporary outdoor facility. Also, I will inquire further as to what has been decided on to remedy the floor problem.

Observer: James P. Wagner, REGIONAL INSPECTOR

Person Interviewed: I WILL GIVE THE P/T FACILITY A COPY AT MY EARLIEST OPPORTUNITY.
