MEMORANDUM

TO: Historic Preservation Commission
FROM: Beau Lockard, Historic Preservation Planner
DATE: March 21, 2024
RE: Rural Historic Preservation Grant Disbursements

Issue:

What percentage of grant funds should initially be disbursed to the grant awardees of the Daniel James Farm?

Background and Discussion:

The Rural Historic Preservation Grant Guidelines approved by the County Council state that the initial disbursement percentage for an awarded grant project will be determined by the Historic Preservation Commission. The initial disbursement can be between 25 to 50% of the total project award. Once the initial disbursement has been made, the remaining grant funds will be reimbursed to the awardee. At 50% completion of the project, an additional 25% may be reimbursed with the remainder of the award reimbursed at project completion.

The awarded project is ready to receive their initial disbursement of grant funding. The project is associated with the Daniel James Farm (CR #20-04). Below is the summary of the project, the awarded amount, and potential percentage disbursements.

<i>Property Name</i>	<i>Project Summary</i>	<i>Grant Award</i>	<i>25% Disbursed</i>	<i>33% Disbursed</i>	<i>50% Disbursed</i>
<i>Daniel James Farm</i>	Repoint the south and east elevations of the stone farmhouse and rebuild the south chimney	\$50,000	\$12,500	\$16,666	\$25,000

Review of the estimates for the project does not show how much of a down payment is required to start work. Typically, up to one-third of the project cost is required by contractors to start the work.

Staff Recommendation:

Staff recommends that the Commission approve one-third or 33% of the grant award to the awardees as this amount should meet the initial deposit required by most contractors.
