

To whole it may concern,

We live at the house closest to the existing house at 9817 Fox Road. We moved into this location only a short while before the Parkers moved in. We have kept a very friendly relationship with them and have been able to share in watching her family grow. They are wonderful parents as evident in their boys' behavior and obvious happiness. We often stop when passing by and have entertaining conversations with both the kids and parents. Their plans for the new house addition do not pose any problems or concerns to us as it is located a good distance from any other of the neighborhood houses including ours. We have met the grandparents who will be living in the new house and believe they will fit right in with the good neighbor vibe we have going in our community.
