Agricultural Land Preservation includes Agricultural Transfer Tax, Critical Farms Program, and the local match for the Rural Legacy Grant. Funding for the Agricultural Preservation Program is derived from the Agricultural Transfer Tax the State levies on the sale of certain farmland. Frederick County is able to retain 75% of the tax receipts which are utilized to purchase easements. The County is authorized to retain these revenues for three years. Revenues not expended within the three year period are reverted to the State. The Critical Farms Program assists full time farmers in acquiring farmland purchasing an option to acquire a land preservation easement at the time of the farm sale. 15% of Non-School Construction recordation tax revenues are dedicated toward Agricultural land preservation in the county.

Bell Court provides affordable rental housing for fixed or low-income seniors and/or persons with a disability or handicap. The development is named for the family of William Bell in thanks for his generous donation of land to Western Maryland Interfaith Housing Development Corporation. Western Maryland Development Corporation, now Interfaith Housing Alliance, Inc. developed the 28 affordable units in conjunction with the County Housing Department using the Maryland Partnership Rental Housing Program. Frederick County owns and manages the apartments.

The Solid Waste Fund accounts for a variety of solid waste activities and services for both commercial and residential customers within Frederick County. The two primary services provided are solid waste facilities and a County-wide recycling program.

With the exception of agricultural wastes, some privately-recycled wastes and wastes which require special handling, most of the refuse originating in the County is collected for disposal at the County-owned and operated Reich's Ford Landfill. The site covers 475 acres in the southeast part of the County. Established in 1968, it is the County's only public sanitary landfill. All burning dumps were closed in 1974.

Solid Waste Management within the Division of Utilities and Solid Waste Management operates the landfill. It is open to County residents and accepts all solid wastes except hazardous materials, pathological wastes, animal carcasses, waste oil and abandoned vehicles. Alternative disposal programs usually regulate these restricted wastes.

Private contractors collect solid waste in all the county's election districts and local municipalities except in Frederick City which employs collection crews. The County is required to adopt and submit to the State a Solid Waste Management Plan and to review the Plan bi-annually.

The Water and Sewer operations, under the Division of Utilities and Solid Waste Management, develops, constructs, operates, and maintains the County's controlled Water and Sewer systems; reviews all designs, agreements, and construction contracts for system additions; prepares water supply and sewage disposal studies; and assists municipalities with water and sewer problems when resources are available.

The Water and Sewer Fund is a separate self supporting fund that provides water and wastewater services. Depending on customer location, the water source may be the Potomac River, Lake Linganore, or a ground water source from deep wells in various aquifers throughout the County.

The Frederick County Public Library (FCPL) system includes the C. Burr Artz Central Library in Frederick City; Branch Libraries in Brunswick, Emmitsburg, Middletown, Thurmont, Walkersville, Urbana, and Point of Rocks; a library facility in the Detention Center; and two mobile libraries providing regularly scheduled service to neighborhoods and childcare facilities throughout the County.

As part of the Regional Cooperating Libraries of Central Maryland (public, academic, and other libraries), and of the statewide network of public libraries, FCPL gives its citizens access to materials from libraries across the state, and the nation, through interlibrary loan.

FCPL is governed by a Board of Trustees, which is an entity authorized under Maryland State Law (ED, 23-401). The Board consists of seven members appointed by the Board of County Commissioners. The members serve five year staggered terms and may not serve more than two consecutive terms. The Board, as authorized by Maryland State Law, has broad fiscal and management responsibility.

The Capital Projects Fund is the first year of the Capital Improvements Program and includes appropriated funds for new and previously approved long-term projects. These projects include construction of new facilities and renovation of existing facilities. The funds in a specific capital budget year usually consist of segments in a project such as land acquisition, design, site improvements or construction and inspection. Larger projects take two to three years to complete and are consolidated into the six year CIP. The main sources of funding include general fund dollars, general obligation bonds, developer impact fees and enterprise funds.

Dedicated recordation tax offers a funding source to help meet capital expenditure requirements. This is done by either transferring pay-go to the Capital Project Fund or by paying for debt service costs associated with bond funding. For 2009, 12.5% of recordation taxes were dedicated to the acquisition and development of recreational and open space land. The recordation tax rate is set at \$6 for each \$500 or fraction of \$500 of consideration payable or of the principal amount of the debt secured for an instrument of writing. The consideration includes the amount of any mortgage or deed of trust assumed by the grantee(s).

Effective January 1, 2012 (until December 31, 2016) the allocation of Recordation Tax is reduced to 5.0%.

Impact fees offer a funding source to help meet the capital expenditure requirements of planned infrastructure expansion. Impact fees are broadly defined as one-time charges assessed against new development that attempt to recover from the developer the capital cost of the additional public facilities needed to serve that development. Impact fees have been validated by a variety of court decisions beginning in 1976. The formulation and implementation of impact fees are guided by the "rational nexus" test. The three elements of the rational nexus test are: need, benefit, and proportionality.

\*June 2014, the Board of County Commissioners approved an update/revision to the calculation of Impact Fees. Mobile Home is now combined with Single-Family Detached.
