Presentation: Maryland EXCELS Family Guides

- Providing support services for early childhood; Responsible for providing resources of support programs for parents to access high quality childcare
- *EXCELS Find A program Directory
 - Familys can search for resources/support programs through the website AND by zip code directory – which filters out by county and city.
 - All programs listed in the directory are licensed childcare programs.
 - Caseworkers can specialize in finding the specific services that the family may need when using the “Location” search engine in EXCELS – which can help benefit the families in finding the best-suited program in their areas
 - Resources and programs have quality ratings (1-5) in the specific areas of support services the program can provide for the childcare
 - Money for childcare can be obtained through EXCELS childcare scholarship programs
 - There are no waiting lists for families to apply or be accepted for these scholarships
 - EXCELS provides a parent checklist that the families can utilize and follow when interviewing/visiting programs to understand what the program offers and how the program can fit the needs of the family and children.
 - The EXCELS Family Guide is currently being marketed through physical printouts being passed around the community, as well planning on using EXCELS community partners to outreach to the public/community about their services
 - The Family Guides are only available in English
 - Plans on to get a translated version of the guides in Spanish by the end of this year/early 2025

Workgroups Next Steps:

- Awareness Committee
 - How to increase engagement within the community
 - Boosting awareness for Family Connects
- Collaboration Committee
 - Keeping up with memberships; ensuring they are up to date

- Review of bylaws
- Recognizing voting members
- Data and Advocacy
 - Gathering data and creating reports to present to decision makers
 - Determining priorities to inform decision makers which priorities are most important.
