The Applicants state that Kerry Anne Chromiak, is the owner of the Property. Ms. Chromiak and Michael Phillips are the Applicants.

- B. A grant of a special exception is basically a matter of development policy, rather than an appeal based on administrative error or on hardship in a particular case. The Board of Appeals should consider the relation of the proposed use to the existing and future development patterns. A special exception shall be granted when the Board finds that:

1. The proposed use is consistent with the purpose and intent of the Comprehensive Development Plan and of Chapter 1-19 of the Frederick County Code; and

The Applicants state that having farm animals such as pigs and sheep, on lots similar to the Applicant’s, is consistent with the rural nature of the area and is consistent with the purpose and the intent of the Comprehensive Development Plan.

2. The nature and intensity of the operations involved in or conducted in connection with it and the size of the site in relation to it are such that the proposed use will be in harmony with the appropriate and orderly development of the neighborhood in which it is located; and

The Applicants state that the nature and intensity of raising up to 5 pigs and 2 sheep will be in harmony with the neighborhood. Keeping a small number of farm animals as described in this application is consistent with the intent of the Comprehensive plan for Frederick County,

3. Operations in connection with the special exception at the proposed location shall not have an adverse effect such as noise, fumes, vibration, or other characteristics on neighboring properties above and beyond those inherently associated with the special exception at any other location within the zoning district; and

The Applicants state that the pen area will be cleaned regularly to avoid any odors or fumes generated by the animal area.

4. Parking areas will comply with the off-street parking regulations of Chapter 1-19 of the County Code and will be screened from adjoining residential uses, and the entrance and exit drives shall be laid out to achieve maximum safety.

The Applicants state that the approval of the application will not require any additional parking spaces or changes to the driveway access for this Property.

5. The road system providing access to the proposed use is adequate to serve the site for the intended use.

The Applicants state that the road system providing access to this Property will remain adequate and that the approval of this application will not create a need for any changes to the Property's road access.

- C. In addition to the general requirements listed above, uses requiring a special exception shall be subject to the specific requirements for each use outlined in Sections 1-19-8.320 through 1-19-8.355 of the County Code.

The Applicants state that they understand and agree to this requirement.

A special exception approval may be granted in accordance with the general and specific requirements enumerated in this section. The Board of Appeals may, in addition to other requirements imposed under Chapter 1-19 and is hereby authorized to add to the specific requirements any additional conditions that it may deem necessary to protect adjacent properties, the general neighborhood, and its residents or workers. Violation of such additional conditions, when made a part of the terms under which the special exception permit is granted, is a violation of Chapter 1-19 and may be grounds for termination of the special exception.

The Applicants state that they understand and agree to comply with any additional conditions imposed by the BOA.

- D. The Board of Appeals shall not grant a special exception unless and until:

1. A written application for a special exception is submitted indicating the section of Chapter 1-19 of the County Code under which the special exception is sought and stating the grounds on which it is requested; and

The Applicants have complied with this requirement.

2. A public hearing has been held; and the Board had made a finding of fact that the special exception requested meets the general and specific requirements outlined in this section.

The Applicants have made a written application stating the grounds upon which the special exception is requested and are complying with the process. A public hearing has been scheduled for August 28, 2025.

- F. The grant of special exception may include approval of customary incidental accessory uses as reviewed and approved by the Zoning Administrator.

The Applicants state that they understand and agree to this requirement.

- G. No use or activity permitted as a special exception shall be enlarged or extended beyond the limits authorized in the grant of special exception. All enlargements, extensions, and changes in use shall require grants of special exception, as in the case of an original petition.

The Applicants state that the Limited Agricultural Activity will not be expanded beyond what is approved. The pen and animals will be kept at least 50' from all property lines.

- H. If a grant of special exception is denied, no new petition for the denied use on the same property shall be accepted by the Board of Appeals for 1 year after the date of denial of the petition.

The Applicants understand and agree to this requirement.

- I. A decision of the Board of Appeals granting a special exception will be void 5 years from date of approval by the Board of Appeals unless the use is established, a building permit is issued, construction has begun, or final site development plan approval has been received in accordance with the terms of the decision. Upon written request submitted to the Zoning Administrator no later than 1 month prior to the expiration date and for good cause shown by the applicant, a 1-time extension may be granted by the Zoning Administrator for a period not to exceed 6 months.
