~~§ 1-19-10.400.1. PURPOSE.~~

~~—The Mineral Mining District (MM) is a floating zone established for the purpose of providing for the development of needed mineral resources in areas where such resources exist subject to adequate safeguard for the conservation of the environment.~~

~~§ 1-19-10.400.2. GENERAL PROVISIONS.~~

~~—(A) (1) The Mineral Mining District (MM) shall be a floating zone which may be established:~~

~~—(a) Where specifically designated on the comprehensive regional plan map as appropriate; and~~

~~—(b) Within the Agricultural (A) Zone. A comprehensive regional plan map which designates appropriate mineral mining areas may include further criteria for the use of those areas in addition to any requirements set forth in this section (e.g., rail hauling, prohibited truck routes, etc.).~~

~~—(2) Mining activities have the potential to adversely impact the surrounding area by virtue of the noise, dust, light, glare, vibrations and traffic generated, and may also impact groundwater supplies. Therefore, compliance with or satisfaction of the criteria contained in this section shall not create a presumption of compatibility with nearby land uses, nor shall it require the granting of the requested reclassification. Because of the potentially adverse impact on the area, the applicant shall demonstrate the existence of a mineral deposit which is economically important and commercially valuable, which can be extracted within the limitations set forth by this article and applicable state, federal and local laws.~~

~~—(B) *Uses permitted.*~~

~~—(1) Mineral mining, as used herein, applies to the extraction and processing of crushed stone, building stone, sand, clay, limestone, gravel deposits, and other minerals mined in a quarry type operation. The standards set forth in this section do not regulate or permit the extraction of metallic minerals, fossil fuels or other minerals not specifically enumerated above.~~

~~—(2) The uses permitted in the Mineral Mining District shall be agricultural activities and forestry activities permitted in the agricultural zone over which the mineral mining designation was attached and the following:~~

~~—(a) Mineral extraction and processing, including grinding, polishing, washing, mixing and sorting, stockpiling, and manufacture of finished products which contain at least 40% of material derived on site;~~

~~—(b) Borrow pits and rubble fills; and~~

~~—(c) Accessory uses operated in conjunction with the mineral extraction such as business office, caretaker's or watchman's structures, or facilities for the repair of equipment used in conjunction with the mining operation.~~

~~—(3) All accessory uses shall occupy no more than 25% of the land zoned mineral mining.~~

~~—(C) *Application process.*~~

~~—(1) The property owner or party having interest in the land shall submit to the Zoning Administrator:~~

~~—(a) An application;~~

~~—(b) Site plan;~~

~~—(c) Mining and reclamation plan which meets the requirements of Md. Code Ann., Subtitle 7-6A, Natural Resources Article;~~

~~—(d) If the applicant is licensed, a copy of its Maryland surface mining license or evidence of application for the license; if the applicant is not licensed, a copy of the license of the proposed operator;~~

~~—(e) A copy of the application for surface mining permit and evidence of its filing with the State of Maryland;~~

~~—(f) Plans showing:~~

~~—1. Compliance with the development standards set forth below; and~~

~~—2. Haul routes and adequacy thereof.~~

~~—(2) The application shall be filed and processed in the same manner as a zoning map amendment. The application may be granted if the Board of County Commissioners finds that the proposed use is compatible with neighborhood uses, consistent with the comprehensive development plan for the county and the region in which it is to be located, and it satisfies the development standards and criteria set forth in this section and all other applicable provisions of this chapter.~~

~~—(D) *Development standards.*~~

The required setback area will be landscaped and maintained as green area.~~

~~_____ (3) The public road providing access to the site will meet the minimum pavement standard of a collector street as established in the Master Highway Plan.~~

~~_____ (4) Prior to the issuance of a zoning certificate, copies of all State of Maryland permits must be submitted to the Zoning Administrator in order that any conditions placed on the permits can be incorporated into the conditions under which the zoning certificate was issued. In addition, any conditions placed on renewed permits shall also be submitted in order to determine if they also should be made conditions of the zoning certificate.~~
