

## NOTICE

CHANGE IN ROOFING APPLICATIONS: Frederick County, Maryland will begin using a Uniflex fluid applied roofing system on various County facilities. Only bidders certified by the manufacturer will be considered for award. All bidders must provide proof of manufacturer's approval in order to be eligible for award. Solicitation(s) for installation of Uniflex roofing will begin to be issued by the County in 2015.

The work will include but is not limited to the installation of a fluid applied roofing system including all preparation work. In order for the County to receive a manufacturer's warranty, the contractor or subcontractor performing the roof coating work must be a Uniflex approved installer. Only bidders that have such certification or bidders utilizing an installer (subcontractor) that has such certification will be eligible for award of this project. **In order for bids to be considered, proof of Uniflex approved installer status must be submitted with the bid package.**

Frederick County will not consider any firm that is not certified by Uniflex and is able to provide a copy of their Uniflex certification with their bid package. Bidders in the process of certification will not be considered. The County will not consider any firm that cannot offer and fulfill the warranty requirements of the specified products.

For more information on the approval process please contact:
