

**FREDERICK COUNTY, MARYLAND
DIVISION OF FINANCE
INVESTMENT POLICY**

Amended March 2014

I. Policy

It is the policy of Frederick County (“County”) to invest funds not needed for immediate expenditures (operating funds) in a manner that will provide the maximum safety of principal, while meeting the daily cash flow needs of the County. The manner in which they are invested will conform to all State of Maryland and Frederick County statutes governing the investment of public funds. The County may not borrow funds for the express purpose of reinvesting those funds.

II. Scope

This investment policy applies to all the financial assets and funds of the County for which the Director of Finance has custody. These funds are accounted for in the County’s Comprehensive Annual Financial Report and include:

- (a) General Fund
- (b) Special Revenue Funds
- (c) Capital Projects Fund
- (d) Enterprise Funds
- (e) Debt Service Fund
- (f) Internal Service Funds
- (g) Trust and Agency Funds
- (h) Other funds as provided by County law

This policy covers the investment of proceeds from bond issues. This policy also covers the financial assets of the Agricultural Land Preservation Funds, whereas investments may be for a term of up to twenty (20) years. This policy does not include the investment activities of the Frederick County Employee Retirement Plan and Retiree Benefit Trust, which are administered by separate trustees; and certain separate entities, which are considered to be component units of the County for financial reporting purposes. However, the Frederick County Public Library and the Frederick County Board of Education are required by Maryland law to comply with the County’s adopted investment policy.

III. Objectives

The primary objectives, in priority order, of investment activities shall be:

- A. Safety

Safety of principal is the foremost objective of the investment program. Investments shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio. The objective will be to mitigate credit and interest rate risk.

B. Liquidity

The investment portfolio shall remain sufficiently liquid to meet all operating requirements that may reasonably be anticipated. However, since all possible cash demands cannot be anticipated, the portfolio should consist largely of securities with active secondary or resale markets. Alternatively, a portion of the portfolio may be placed in money market mutual funds or local government investment pools which offer same-day liquidity for short-term funds.

C. Yield

The investment portfolio shall be designed with the objective of attaining a market rate of return throughout budgetary and economic cycles, taking into account the County's investment risk constraints and liquidity needs. Return on investment is of secondary importance compared to the safety and liquidity objectives described above.

IV. Prudence

The standard of prudence to be applied by investment officials shall be the "Prudent Person" rule, which states, "Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived." The "Prudent Person" rule shall be applied in the context of managing the overall portfolio.

Investment officials acting in accordance with established procedures and the investment policy and exercising due diligence shall not be held personally responsible for an individual security's credit risk or market price changes, provided deviations from expectations are reported in a timely fashion and appropriate action is taken to control adverse developments.

V. Delegation of Authority

Authority to manage the County's investment program is granted to the President of the Board of County Commissioners under the Local Government Article, Section 17-101, Annotated Code of Maryland, who, by this policy, has delegated the authority to manage the investment program to the Director of Finance. This Section is included as Attachment A of this policy.

Responsibility for the operation of the investment program has been delegated to the Director of Treasury (herein referred to as Investment Officer), who shall carry out the operation of the investment program consistent with this investment policy.

The Investment Officer shall develop and maintain administrative procedures for the operation of the investment program consistent with this investment policy. These procedures should include references to cash flow requirements, broker/dealer relationships, safekeeping, master repurchase agreements and collateral.

VI. Ethics and Conflicts of Interest

The Investment Officer and employees involved in the investment process must not conduct personal business activity that could conflict with proper execution of the investment program or that could impair their ability to make impartial decisions. They shall refrain from undertaking personal investment transactions with the same individual with whom business is conducted on behalf of the County. The Investment Officer and employees shall comply with the code of ethics requirements as specified in the Frederick County Code, Section 1-7.1.

VII. Authorized Financial Dealers and Institutions

The County shall establish and maintain a list of broker/dealers and financial institutions authorized to provide investment services. Approval will be based upon the following criteria:

Securities Dealers

- A. Be listed as a Primary Government Securities Dealer reporting to the Government Securities Dealers Statistics Unit of the Federal Reserve Bank of New York; or
- B. Be a commercial banking organization that is subject to official supervision by federal bank supervisors; or
- C. Be a broker/dealer registered with the Securities and Exchange Commission (SEC). Firms must have adequate capital to fulfill their commitments under adverse market conditions.

Non-primary Government Securities Dealers must submit evidence of their capital position by annually submitting their SEC Financial and Operational Combined Uniform Single Report (FOCUS) as well as their annual audited financial report.

All approved Non-Primary Broker Dealers are required to complete the Frederick County Treasury Department's Request for Information (RFI). The RFI is included here as Attachment B of this policy. The RFI will provide written acknowledgement that they have received and will comply with the County's Investment Policy; agree to delivery vs. payment; identify authorized personnel; disclose any "material" litigation, arbitration or regulatory proceedings; and must be certified by a registered

principal of the firm. The approved broker list will be reviewed yearly, to determine which brokers will continue to be eligible to provide their services to the County.

Those firms intending to offer Repurchase Agreements (REPO) must additionally complete the County's Master Repurchase Agreement which is available from the Investment Officer.

Commercial Banks

Commercial banks must have a short-term rating of investment grade from at least one of the National Recognized Statistical Rating Organizations (NRSRO) as designated by the SEC. All banks with which the Finance Division conducts business must provide the County, annually, their most recent audited financial statements.

VIII. Authorized Investments

The County is authorized by the Local Government Article and the State Finance Procurement Article Section 6-222 to invest in specific types of securities. State Finance Procurement Article Section 6-222 is included as Attachment C of this policy. The Investment Officer may invest County funds in the following investments:

- A. U.S. Government Securities - These securities include obligations for which the United States has pledged its full faith and credit for the payment of principal and interest.
- B. U.S. Agency Securities - Obligations that a federal agency or a federal instrumentality issues in accordance with an Act of Congress.
- C. Repurchase Agreements - Entered into with financial institutions that sign master repurchase agreements and that maintain collateralization of at least 102% of the principal amount and comply with other safekeeping and collateral requirements.
- D. Certificates of Deposit and Time Deposits, including deposits to the Certificate of Deposit Account Registry Service (CDARS) - Banks and savings and loan associations must maintain collateralization that equals or exceeds the amount of the deposit not federally insured and comply with other safekeeping and collateral requirements.
- E. Bankers' Acceptances - Issued by a bank with a short-term debt rating in the highest letter and numerical rating by at least one nationally recognized statistical rating organization as designated by either the SEC or the State Treasurer.

- F. Commercial Paper - Commercial paper issued by a company with a short-term debt rating in the highest letter and numerical rating by at least one nationally recognized statistical rating organization as designated by the SEC.
- G. With respect to amounts treated by the Internal Revenue Service as bond sale proceeds only, bonds, notes, or other obligations of investment grade in the highest quality letter and numerical rating by at least one nationally recognized statistical rating organization as designated by the United States Securities and Exchange Commission issued by or on behalf of this or any other state or any agency, department, county, municipal or public corporation, special district, authority, or political subdivision thereof, or in any fund or trust that invests only in securities of the type described in this paragraph.
- H. U.S. Treasury Strips, Zero Coupon Bonds or similar investment instruments – Agricultural Land Preservation Funds only.
- I. Pooled Investments - Any investment portfolio created under the Maryland Local Government Investment Pool, defined under the Local Government Article, Sections 17-301 through 17-309 of the Annotated Code of Maryland, that is administered by the State Treasurer. This Section is included as Attachment D of this policy.
- J. Money Market Mutual Funds – Money Market Mutual Funds registered with the SEC under the Investment Company Act of 1940, 15 U.S.C. Section 80(a-1), as amended, and operated in accordance with Rule 2A-7 of the Investment Company Act of 1940, 17 C.F.R. Section 270.2A-7, as amended, and that have received the highest possible rating from at least one nationally recognized statistical rating organization as designated by the SEC.

IX. Diversification

Invested funds shall be diversified to minimize risk or loss resulting from over-concentration of assets in a specific maturity, specific issuer, or specific class of securities.

A.	<u>Diversification by Investment Type</u>	<u>Max. % of Portfolio*</u>
1.	U.S. Government Treasury Obligations	100%
2.	Local Government Investment Pool	100%
3.	U.S. Government Agencies	80%

4. Bankers' Acceptances	20%
5. Money Market Mutual Funds	50%
6. Repurchase Agreements	50%
7. Collateralized Certificates of Deposit and Time Deposits	25%
8. Commercial Paper	10%

* at time of purchase

B. <u>Diversification by Institution</u>	<u>Max. % of Portfolio*</u>
1. U.S. Government Treasury Obligations	100%
2. Local Government Investment Pool	100%
3. U.S. Government Agency-By-Agency	25%
4. Bankers' Acceptances by Institution and Country	10%
5. Money Market Mutual Funds by Fund	25%
6. Commercial Banks (Certificates of Deposits)	20%

* at time of purchase

C. Diversification of Maturities

In order to meet the objectives of the County's investment activities, as listed above in Section III of this policy, seventy five percent (75%) of the investments of the County must be on a short-term basis (a stated maximum maturity of up to 18 months). However, the balance of the portfolio and those funds attributed to bond proceeds may be invested in investments with longer maturities (a stated maximum maturity of up to three years) without jeopardizing adequate safety and liquidity standards of the portfolio and at the same time increasing the overall yield of the portfolio. These investments will be limited to U.S. Government and U.S. Agency Securities. Agricultural Land Preservation Funds only will be invested to coincide with the maturity dates on payments due on Agricultural Land Preservation settlements.

D. Diversification by Broker/Dealer

No more than 25% of the total investment portfolio will be invested through a single broker or dealer.

X. Investment Award

Investments shall be awarded to the institution whose percentage yield produces the greatest interest income to the County and complies with safekeeping requirements and investment limitations. Investments can be awarded exclusively when the investment security is a new issue that can only be purchased from one source or can be purchased at the same yield from any source, while in compliance with the 25% diversification by broker/dealer.

XI. Performance Standards

The investment portfolio will be managed in accordance with the parameters specified within this policy. The portfolio should obtain a market average rate of return during a market/economic environment of stable interest rates. A series of appropriate benchmarks have been established against which portfolio performance shall be compared on a regular basis. These benchmarks are the 3-Month Treasury Bill and the Maryland Local Government Investment Pool's Average Daily Rate. These benchmarks are reflective of the actual securities being purchased and risks undertaken and have a similar weighted average maturity as the County's portfolio.

XII. Collateralization

A. Collateralization shall be maintained in excess of Federal insurance coverage for all County bank accounts, certificates of deposit and time deposits. Acceptable collateral is specified under Section 6-202 of the State Finance and Procurement Article of the Annotated Code of Maryland. This Section is included as Attachment E of this policy.

B. Collateralization is required for all repurchase agreements of at least 102% of the principal amount. Acceptable collateral shall consist of obligations of the United States, its agencies or instrumentalities as specified under Section VIII.

C. The collateral shall be held by an independent third party as specified under Section XIII.

XIII. Safekeeping and Custody

All security transactions, including collateral for repurchase agreements, shall be executed on a delivery vs. payment (DVP) basis, except for local government pooled investments, certificates of deposit and time deposits. This is to ensure that securities are deposited in an eligible financial institution when funds are released.

An independent third party with whom the County has a current custodial

agreement will always hold the collateral. The Custodian may not be a counterparty to the transaction, unless the Custodian is the County's primary bank and the securities purchased are from the bank and include the collateral from the bank. The collateral for repurchase agreements, certificates of deposit and time deposits are to be held in the County's name and account. The safekeeping institution shall annually provide a copy of their most recent report on internal controls (Statement of Auditing Standards No. 70, or SAS 70).

The current Federal Reserve Bank for the County or other account as designated by the County, functioning under the rules in Operating Circular Nos. 16 and 19, may be used as a custodian for pledged collateral on time deposits and certificates of deposit.

XIV. Internal Control

The Director of Finance shall establish a system of internal controls, which shall be documented in writing. An audit of the internal controls of the investment operation (both procedural and operational) may be included in the annual financial audit conducted by an outside independent audit company.

XV. Reporting

The Investment Officer shall submit quarterly to the County Manager and the Director of Finance investment reports for management purposes that shall include the following:

- A. Detail information on all investments (type, par value, coupon, maturity date, cusip, etc.) held at the end of the reporting period.
- B. Realized and unrealized gains or losses resulting from appreciation or depreciation by listing the cost and market value of the securities at the end of the reporting period.
- C. Average weighted yield to maturity of portfolio on investments as compared to the yield on the established benchmarks for the same period.
- D. Percentage of the total portfolio that each type of investment represents.

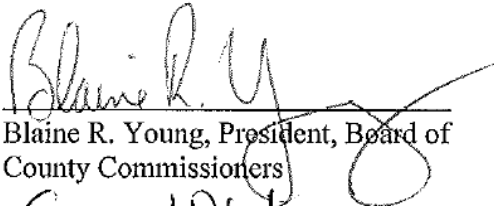

Market prices, for the computation of market values, will be obtained from independent sources.

XVI. Investment Policy Adoption

The investment policy is approved by the Director of Finance and adopted by a

resolution of the Board of County Commissioners and filed with the State Treasurer's Office. The Director of Finance may institute changes in these policies at any time, so long as the changes are in compliance with the Annotated Code of Maryland and the Frederick County Code of Ordinances. The Board of County Commissioners must approve any modifications made to this investment policy by resolution and a certified copy of the changed policy must be forwarded to the State Treasurer.
