Re: **Location of Private Amenities within Planned Development Districts**

Issue: Should the County Council revise the County Code to clarify that private amenities, which are accessory to the residential use and intended to serve only the residents of a Planned Development District, are to be located within the Planned Development District, and not included in the definition of Outdoor Sports Recreation Facility, a commercial category of uses.

Background:

Areas located in the “Town Center” or “Commercial Districts” of a planned development, are intended for use by shoppers, business owners and employees, and members of the public visiting these larger scale “planned developments.” The County Code provides guidance for the location and orientation of parks, open spaces, courtyards, green areas, civic spaces, and encourages that they be accessible to the “greatest number of potential users....” (§1-19-10.500(A)(2))

In contrast, there are certain development related amenities (typically clubhouses and pools) that are intended to be used exclusively by “dues paying” homeowners and residents of the development, are “accessory” to the residential units, and are to be placed under the ownership and control of the Homeowner’s Association (HOA). (§1-19-8.240(A)(3))

Recently a site plan application for a pool and clubhouse intended to be owned and operated by a HOA solely for use by residents of a private residential development was processed under the category of “Outdoor Sports Recreation Facility” which is identified in the use chart as a “Commercial Amusement.” (§1-19-5.310)

The purpose of this proposed Bill is to clarify that HOA owned private amenities are not “commercial amusements”, and to assure that they are constructed within the boundaries of the development and on property zoned for residential use so that the amenities will qualify as an “accessory” use to the residences, not as a “commercial amusement.”
