Once the app is downloaded, the user will be prompted to create an account. The only information needed to set up an account is their cell phone number. After entering the phone number, tap the “I agree” slider.

They will be texted a verification code, which needs to be entered into the app where prompted.

Once complete, the pass will be ready for the user to activate.

Note that the pass should only be activated just prior to boarding the bus. If the user activates the pass (one-trip or one-day) when they don't need it, another pass will need to be purchased if not used within one hour (one-trip pass) or before the end of the TRANSIT service day (one-day pass). The user can also purchase their own passes by tapping Buy Passes. Their credit card information will be encrypted, and only need to be entered one time. All new users can purchase an all-day bus pass for 50% off.

This portal is mostly useful for a few one-time pass purchases. If you need to purchase many passes all at once, contact transit@frederickcountymd.gov and we will assist.
