Braddock Heights Improvements Project – Surveying Notification

The Frederick County Office of Transportation Engineering through our consultant Greeman-Pedersen, Inc. Company (GPI) will be performing field surveys, **starting on or around September 30, 2024** for the Initial Design of the Braddock Heights Improvements Project. The project will include improvements to several streets within the Braddock Heights community to address the needs of pedestrians as well as address existing pavement and drainage issues. Please be aware that traffic may need to be controlled during surveying and suspect slight delays.

The staff of GPI and GPI's subcontractor will be serving as agents of the County and may need to enter onto your property to collect the required data. The Annotated Code of Maryland, §12-111 of the Real Property Article (see reverse), provides the privilege of entering onto your property for this purpose. **The staff of GPI and GPI's subcontractor have been instructed to take every precaution to assure that your property is not damaged in any way during these studies. Any disturbances of the ground or vegetation will be restored to its existing condition. This work does not require anyone to be home when the surveys or field investigations are conducted.**

If you have any questions regarding the project and/or the survey work, please contact the Project Manager, Ivey Brown, at (301) 673-0472 or email IBrown@FrederickCountyMD.gov. Our office will be happy to resolve any problems and answer any questions. Thank you.
