## **CANVASSING OF BALLOTS**

### Overview of Canvass Process

Election Director Barbara Wagner explained the rules concerning public observation of the canvass. She provided an overview of the canvassing process and noted that the rules were posted in the canvass room. Ballots were distributed to the ballot processing canvassing teams in batches. Each canvassing team reviewed the envelope first to determine whether it was timely received.

For timely received ballots, each canvassing team determined whether the voter signed the oath. After verifying that the oath is signed, each canvassing team opened the envelopes. With the envelope face down, each canvassing team removed the ballot, taking care that the envelope stays face down. After removing all of the ballots in the batch, the ballot envelopes were set aside. Each canvassing team reviewed the ballots for compliance and tabulating acceptability.

Ballots that were untimely or otherwise not in compliance were placed in a folder/envelope, with the canvassing team's number, or other information identifying the canvassing team to which the ballot belonged, and the reasons for the referral written on the envelope. The envelope with the ballots inside was referred to the Board of Canvassers for later review.

Those timely ballots that were in compliance and could be read by the ballot scanner were referred to the Board of Canvassers for acceptance.

The Board of Canvassers ruled on whether to accept or unanimously reject the referred ballots.

The Director explained the process to provide information to the Board of Canvassers or challenged a decision of the Board.
