A Message From Council President Brad Young:

The Frederick County Council meets regularly on Tuesday evenings at 5:30 pm at Winchester Hall, located at 12 East Church Street in downtown Frederick. All meetings are open to the public, and we public welcome participation. Members of the public are welcome to attend in person or participate over the phone. Public comments will occur during every meeting.

At the June 17th meeting the Frederick County Council had the introduction of Bill 25-09, a Bill concerning the Critical Digital Infrastructure (CDI) Overlay Zone. This bill was the first step of the process and it will proceed through our typical legislative process with several opportunities for public input. The Administration presented a clear process to the Council at our May 27th workshop, which includes: the zoning text amendment which was introduced at the June 17th meeting. This process will include a comprehensive plan amendment, which has not yet been introduced and a zoning map amendment to add the overlay area to our county maps, which has not yet been published. The location, size, and boundaries of the overlay will be established through a separate process that has not yet begun.

The first step for the map amendment is a recommendation from the Division of Planning and Permitting, which will be presented to the Planning Commission. The Administration shared with us at our May 27th workshop the criteria which they have directed Division of Planning and Permitting to use for selecting which parcels will be included in the overlay. These include proximity to industrial lands and the growth area boundary, access to necessary infrastructure, and parcel size. There will be a 1% cap of County land established in this Bill is an upper limit, but does not mean the overlay will include 1% of County land. I would note that current law allows data centers to be developed on any land zoned industrial. That means about 5,000 acres (4,966) are currently eligible without any zoning changes.

Bill 25-09 proposes a 1% cap which limits it to 4,284 acres – at most. This will include the East Alcoa site, which is 2,200 acres. Any maps or claims of specific acreage for the overlay circulating in the public are not official maps from Frederick County Government and are likely created by advocacy groups that are spreading misinformation to stoke skepticism in this process. I urge all residents who are interested in this topic to stay tuned to our County Council and Planning Commission meetings to ensure the information you have is accurate and up to date. This bill will have its public hearing with the County Council on Tuesday, July 15, at 7:00 pm.

The Frederick County Council encourages public involvement at every stage of the legislative process. Members of the public are welcome to attend and give comment in person, leave a voicemail to be forwarded to each Council Member, or email us any time at councilmembers@frederickcountymd.gov. Please visit our website at <http://www.frederickcountymd.gov/county council> to view our latest agendas, legislation, and upcoming calendar of events. Council Members often attend events such as new business openings, business anniversaries, or groundbreaking ceremonies. If you have an event, you'd like to invite us to, please email us at councilmembers@frederickcountymd.gov.

And as always, if there is ever anything I can do for you, please feel free to reach out to me and my office. You can email at: BYoung@FrederickCountyMD.gov, or you can call my office at 301-600-1108.

A Message From Council Vice President Kavonté Duckett:

Supporting Small Business in Frederick County

At our June 24th Council Meeting, we received an informative update from the Division of Planning & Permitting's Applicant Support Team. If you're considering starting a small business or navigating the permitting process, this dedicated team is here to help guide you every step of the way. Their support can make a real difference—don't hesitate to reach out!
