Resources Available for People Impacted by Federal Government Shutdown

FREDERICK, Md. – Information and resources for those impacted by the federal government shutdown are available on the Frederick County Government website. The web page can be found at www.FrederickCountyMD.gov/Federal.

“In Frederick County, we believe in compassion, community, and stepping up for one another in times of need,” County Executive Jessica Fitzwater said. “A federal government shutdown could affect thousands of our neighbors and local businesses—disrupting essential services and creating financial strain for families. But our community partners are ready to help. That’s the Frederick County way—coming together to support those who need it most. If you or someone you know is struggling, please visit the County website for helpful resources.”

The web page provides information on where to find assistance with food, medical and health care needs, payments for utilities, employment opportunities, and other financial relief. The resource list will be updated as new information becomes available.
