**Building Permit Information
Sign**

We have gone paperless!! This application should be submitted electronically via the citizen portal at <https://planningandpermitting.frederickcountymd.gov/>

- Multiple signs to be located on the same property may be applied for on one permit application.
- An illuminated sign requires an electrical permit. The electrical permit must be applied for before a sign permit for an illuminated sign can be issued.
- A replacement sign or re-facing of a sign has the same submittal requirements as a new sign.

Submittal Requirements

- 1. Approved Site Plan, or a Plot Plan. When at all possible, a legal survey should be used. If a survey is not being used, a plot plan can be drawn by hand. It must be legible and drawn to scale. Site Plan or Plot Plan needs to include the following:
 - All property lines and property line dimensions
 - Square footage or acreage of the property
 - Building Restriction Lines (BRL) and utility easements
 - North direction arrow
 - Scale of drawing
 - “Trading as” business name(s) of business the sign is for
 - Street Address of property
 - Existing structures
 - Existing driveway entrance(s), and roadways
 - Location of proposed sign(s). For free-standing signs, show setbacks from the proposed new sign to property lines and/or the nearest structure IN EACH DIRECTION.
- 2. Construction plans, unless the sign is for a building-mounted box sign or channel letter sign type. These types will require only one copy. Drawings must include the exact dimensions of the signage, as well as the wording on the sign. The numeric street address must also be shown on the plans. Street address numbers must be a minimum of 6” high and be on a stark contrasting background. The address must be clearly visible from the street, from either direction of travel. The address numbers should be located at or near the top of the sign.
 - Signed and sealed plans are not required if alteration or repair of existing building is limited to one of the following: (1) Minor interior alterations or cosmetic or similar repairs; and fixtures, cabinetwork or furniture, where the estimated cost including labor and materials does not exceed \$25,000. (2) Storefronts, facades or similar replacements; exterior stairways, landings, decks or ramps; joists; or a mechanical, electrical, or plumbing system where the estimated cost including labor and materials does not exceed \$10,000.

Note: If proposed sign is for a new free-standing sign that is ten (10) feet or more above grade, or a monument sign four (4) feet high or more, retaining at least four feet of grade, the plans must be signed and sealed by a Maryland-registered Architect or Engineer.

- ☐ 3. Payment of fees. Check, cash or credit cards are accepted. There is a service charge for credit card transactions. All fees must be paid for at time of application. Fees are calculated as follows:

\$ 28.00 Filing fee
\$ 10.00 Automation fee
